## Rule Sued; City To Defend; Taxpayers To Pay All Costs

### Peggy Shadforth In France; Exchange Student For EILG

Peggy Shadforth, daughter of Mr. and Mrs. Robert Shadforth is having a most happy summer in France with the Experiment in International Living Group. The first month Peggy lived with a French couple and their three teenage daughters, Catherine, Christine, and Analise in the city of Montbeliard.

Her "sisters" are fond of American folk singers and they play the guitar and the piano and also enjoy literature. The girls speak English well and their parents have toured America several times. However English is not spoken, in order to allow Peggy to practice French.

Montbeliard has historically been the buffer between Germany and France because of the high mountain ranges. During the middle ages it was ruled by German Princes and until a couple of centuries ago was the clock-making center of the

world — even surpassed Switzerland. Today the Peugeot automobile is the industry that controls most of the area.

### Qualifying Ten Swimmers

#### Swim Team Represents City In Two Regionals

Sierra Madre Swim Team was well-represented at two regional meets last week, qualifying ten swimmers plus regionalists on six relay teams for further competition.

John Cowan and Roark Paschall, in the 11-12 boys group, took first in breaststroke and backstroke, respectively, and Debbie Knickelbein, came out on top in the 11-12 girls group, taking a first in breaststroke at the Los Angeles County Regional Finals on Thursday at the Rosemead pool.

Sierra Madre came out as the overall third high point team and was one of eight teams participating in this regional competition.

The 11-12 boys 200-yard medley relay team also garnered the top spot, with Larry Eustacy, John Cowan, Roark Paschall, and Andy Rogers each swimming 50 yards of one stroke: breaststroke, backstroke, and butterfly.

The above team members will go on to the Los Angeles County finals on August 11 and 12 representing the San Gabriel Valley Region in their respective events.

Sierra Madre qualified six individual entries and five relay teams in Class "C," and one Class "B" entry when the Southern California Municipal Athletic Federation (SCMAF) held its regional finals on Saturday evening at Rosemead, with ten teams competing.

Andy Rogers will go on to compete at the SCMAF finals on August 19 in the Class "B" 11-12 boys butterfly. He took a third place in that event on Saturday.

Class "C" swimmers in the 8 and under boys group was Owen Lubow, who placed fourth in breaststroke.

### Blane McGillicuddy Brings Action; Others Sign Supporting Affidavits Martin As Interim City Administrator; \$1000 Mo.

On July 26, 1967, Councilman Ralph R. Rule was served with the preliminary papers in the matter of the "People ex rel, McGillicuddy vs. Rule. Reducing this to a layman's understanding it was a "Quo Warranto," a proceeding to remove Councilman Rule from his Council seat, where he was appointed by the Council on June 20, 1967.

Blane H. McGillicuddy, of 671 Chaparral Road is the parent signer of the paper served on Councilman Ralph Rule, together with affidavits supporting this action from the following citizens: Councilwoman Wagner, Councilwoman Maddox, City Clerk Marie Warfel, Jean McGee, Rosalie Rose, Peter Tarup, Grace Daniels.

The Quo Warranto is not a challenge to the personal qualifications of the councilman (such as residency, age, absence, etc) but rather it relates to the disqualification of the Council itself.

Having thus been served the paper, it was the first thoughts of Councilman Rule, that he must now defend himself against something that he had no part in, other than to present himself as a qualified resident, and after appointment, submit to the oath of office and assume the seat on the Council left vacant by the

resignation of Frank R. Parks. Realizing that this would be an expensive procedure, Councilman Rule called upon the office of City Attorney to defend him in the matter.

According to a report from the City Attorney the law provides that defense may be provided by the public entity in three ways, i.e. by their own attorney, by employing special counsel, or by insurance which requires the insurer to defend.

It was recommended by City Attorney Martin that the City defend the action against Councilman Rule and that the taxpayers bear the entire expense of the defense. Should they refuse to do so, it was his opinion that Councilman Rule would be authorized to retain his own attorney and is entitled to recover from the city his expenses so incurred.

Councilman Sorensen made the motion that the City defend their Councilman and pay all expenses. Councilwoman Maddox declined to vote, and Councilman Rule was held ineligible to vote. Councilman Wagner, serving as Mayor Pro Tem seconded the motion and the motion carried.

Councilman Rule was then given the advice that he could select his own attorney and proceed to defend himself and the city would pick up the costs.

Costs were estimated to be a low of \$1,500 to a high of maybe \$5,000 to \$7,000, depending just how far either side might want to carry the action. At this time no limitations were placed on the costs; however, after Councilman Sorensen had left the chambers, Councilwoman Maddox made the motion that the amount be "reasonable."

City Attorney Martin was appointed interim City Administrator, at the meeting, until a replacement for Darwin Dennis is hired, at a monthly salary of \$1000. Council adjourned until Monday, August 21 for a budget study.

### William W. Smith Receives 50 Yr. Pin

A gala event in one man's life occurred on Tuesday, August 1, when William Watkins Smith was presented his 50 year pin in Masonry at the regular stated meeting of the local Lodge.

The air traffic specialist, Stephen J. Collins, inspector for 536th District made the presentation to Mr. Smith.

A gala event in one man's life occurred on Tuesday, August 1, when William Watkins Smith was presented his 50 year pin in Masonry at the regular stated meeting of the local Lodge.

The air traffic specialist, Stephen J. Collins, inspector for 536th District made the presentation to Mr. Smith.

### Fire Call 89 E. Laurel

The Sierra Madre Volunteer Fire Department was called into service at 2:45 p.m. Friday, August 4, to the home of Donald Morgan, 89 E. Laurel.

Crown Truck No. 4 arrived at the scene 3 minutes 45 seconds after the sounding of the alarm to find the rear of the home and kitchen fully involved. Crown truck No. 1 arrived 22 seconds later.

Water was received 2 minutes 15 seconds after arrival and containment was 8 minutes 52 seconds after the sounding of the alarm. Sixteen volunteers and one reserve answered the alarm.

Cause of the fire, was stated by Fire Chief Charles Brown and Assistant Chief John Goodall, as spontaneous combustion, evidently from a barrel of paint and solvent soaked rags stored in the rear enclosure. The fire was discovered by a small boy who tried to douse it with a pail of water and later with a garden hose, but the fire was too much for him and quickly spread to the kitchen and ceilings of the home.

All electrical appliances in the kitchen and back enclosure were completely lost, as were dishes and other belongings in the area. The men spent one hour 30 minutes from call to clean-up and return of equipment to the station.

Estimated damage by Fire Chief Brown was set at \$10,000.

### G. E. Lighthizer Selected By USAF

Airman George E. Lighthizer, son of Mr. and Mrs. Chester F. Lighthizer, formerly of 100 Colony Drive, has been selected for technical training at Keesler AFB, Miss., as a U.S. Air Force air traffic specialist.

The airman recently completed the basic training at Lackland AFB, Tex. His new school is part of the Air Training Command which conducts hundreds of specialized courses to provide technically trained personnel for the nation's aerospace force.

Airman Lighthizer is a 1965 graduate of Pasadena High School and attended Pasadena City College.

### Meads Go To Sun City

Mr. and Mrs. Jack Meade, former co-owners of the Sierra Madre Hardware and Gift store, will soon leave Sierra Madre for Sun City, near Hemet.

In moving to Sun City they will open and operate a men's clothing store to be known as Jackson Men's Wear.

Both Jack and Helen wish to thank their many friends for all the courtesies and friendships extended them while here, and invite you to stop in and visit with them if you are ever in Sun City.

THE CYSTIC FIBROSIS GUILD'S Summer work party are preparing for the "Candlelight and Flowers" Benefit Dinner Dance to be held October 14, in the Viennese Room of the Huntington-Sheraton Hotel. Proceeds will go to Children's Hospital to be used in Cystic Fibrosis Clinic. Mrs. Ronald Wint, President of the Guild has appointed Mrs. Francis Howell and Mrs. Wells Pless as co-chairman of the event. Guild members, left to right: Mrs. Thomas Walsh, Mrs. Edward McKelvey, Mrs. Richard Esbenschade, Mrs. Ronald Wint, Mrs. Carl Burt, and Mrs. Eugene Rode.

### Red Cross Needs Young People As Swim Instructors

The Red Cross offers many opportunities for young people to serve their community. Volunteer instructor aids are needed now at the Sierra Madre pool, according to Myrtis Walte, Sierra Madre Red Cross water safety chairman and head instructor at the pool.

Applicants must have a Red Cross Senior Lifesaving Certificate and may sign up at the pool. Volunteer instructor aids assist water safety instructors in teaching children to swim and dive during the summer swimming program.

The Red Cross course leading to a water safety instructor certificate is offered

### Final Budget On the Way

#### Budget Study Scrimmage Ironed Out For Present

Controversy seemed to rear its ugly head at the Budget Session held by the City Council Monday evening, after an entirely new budget had been presented by the Maddox-Wagner team at the meeting of Thursday, August 3.

Councilman Sorensen opened the discussion stating that "The possibility of reorganization at this time is not proper" and "that the format presented by Mr. Dennis, and worked on for several months should be returned to."

Before turning the remarks over to Councilman Rule and City Administrator Dennis he ended his remarks with "The budget study contribution submitted last week by the Maddox-Wagner team is the type of reasons that Darwin Dennis resigns. City Ordinances place the responsibility of the budget on the shoulders of the City Administrator and the Council should work with him." He concluded, "There are some areas of violent disagreement that we must come to an understanding on before we can pass the final budget."

Councilman Rule stated that "We have been playing politics long enough with this budget and it is obvious that the Maddox-Wagner budget will not fill the obligations of the city."

City Administrator Darwin Dennis then followed with his remarks: "You will recall that the proposed budget was presented in May... all estimates were computed during April."

"The proposed budget is a new format and follows very closely the format recommended by the Finance Officers Division of the League of California cities."

"The proposed budget hides nothing and was prepared by the city staff and myself with the consulting services of Richard Soll of Pyle, Lance, Slinger and Soll."

"A preliminary budget is an estimate of revenues and proposed expenditures prepared prior to the end of the fiscal year, and I want to emphasize, prepared prior to Council consideration of any requests."

"Statistics obtained in any preliminary budget must be based upon the information available at the time, and in the absence of a formal accounting system, in Sierra Madre, this has been most difficult."

"A budget is essentially a guideline for the use of administration in controlling the expenditures of funds approved by the Council."

"As such it must be realistic and realistic."

"As such it must be realistic and realistic."

"As such it must be realistic and realistic."

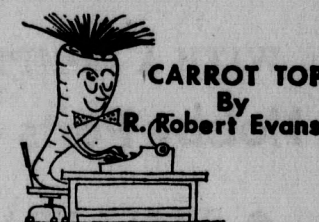

## POLICE WARNING

The Sierra Madre Police Department will start immediately to enforce Ordinance No. 791 which is the Ordinance pertaining to citizens leaving keys in their motor vehicle while unattended.

Starting immediately if an officer finds the keys in the ignition or an unlocked ignition of any motor vehicle, he will remove said keys and take them to the Police Station. He will also leave a COURTESY CITATION advising of the violation and where the key can be recovered.

This procedure will be in effect from NOW until SEPTEMBER 7, 1967, during which time only a courtesy citation will be issued. After September 7, violators will be cited into Pasadena Municipal Court in the regular manner.

Figures furnished by E. F. Please turn to Page 5

I was sure happy to learn that Frances King was awarded the Community Service award from the Sierra Madre Chamber of Commerce for the month of August. She really deserved it for her hard work over the past three years in planning the Fourth of July parade and celebration.

To me, the Chamber of Commerce is doing a great job in awarding those individual Community Service awards. The "Man of the Year" award is wonderful, and we hope to see this continue, but only one award per year seems hardly fair when so many people contribute over the year, and through the individual awards you can honor these people as the year progresses.

Our heartfelt congratulations to Frances. We look forward to greater accomplishments in the years ahead.

Of course youth, coming out of high school and college to enter the world of business, must have experience, but gaining that experience is really hazardous, both to the employee and employer. Take, for instance, a young girl who had always planned to become a doctor's secretary.

Having gained employment for a local doctor, the very first day she seemed to have trouble with the doctor's notes on an emergency case which read, "Shot in the lumbar region." Of course youth was not cheated for imagination, so after a few minutes of thinking, she brightened up and typed in the record, "... Wounded in the woods."

And here is a good one that happened in Pasadena recently, and it is true, so I am told... Seems that the police picked up a little blonde they found wandering down the street. The two - and a half - year old stroller charmed the officers, but she either could not or would not tell them her name or where she lived.

Finally, the baffled officers began going through her pockets in hope of finding some clue to her identity. The little girl made no protest, but remarked very innocently: "... I don't have a gun..."

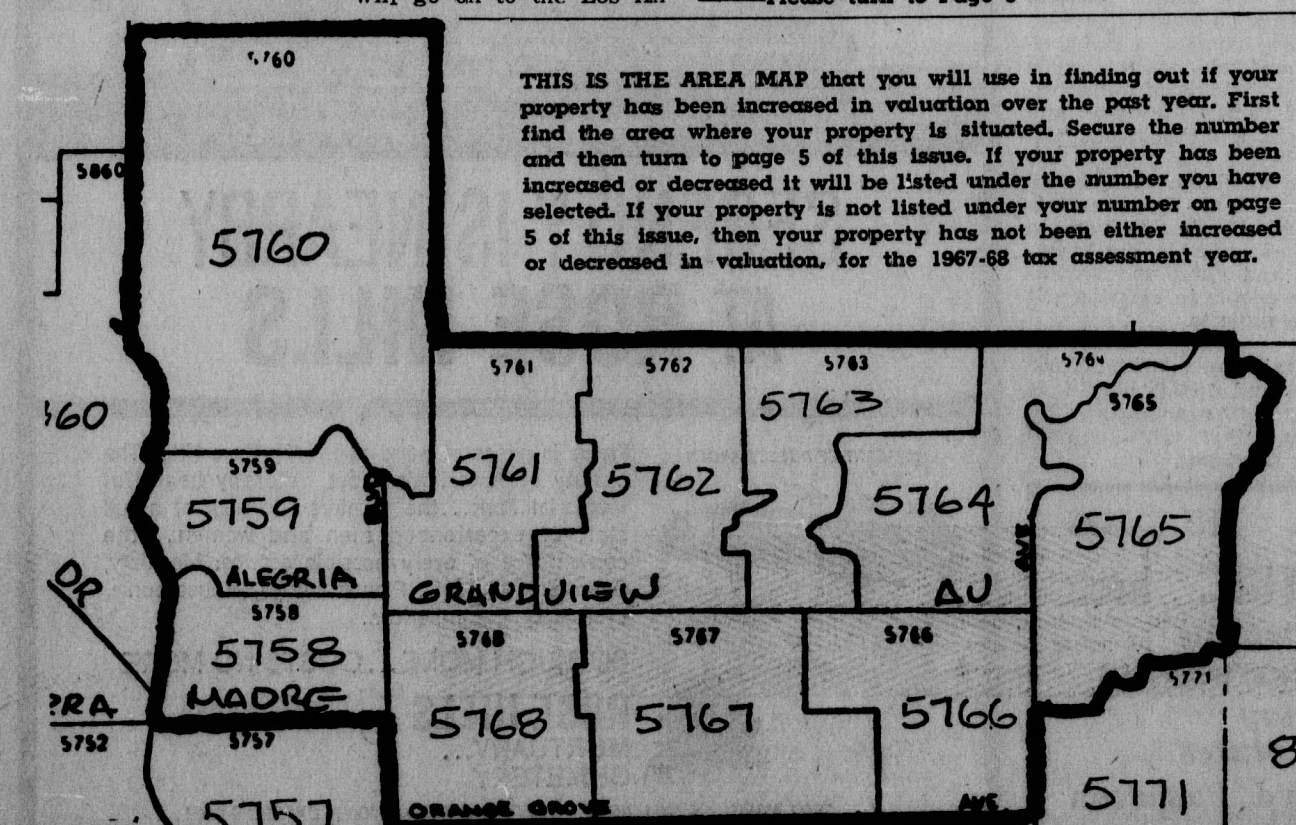

I'll bet those officers were surprised to learn of this... a little startled, too, I'll bet.

Seems that the "new fashion" in Sierra Madre is "SUE AND BE SUEED" but here again I guess this is everyone's Constitutional right. To me it just doesn't seem right because when this takes precedent over "bargaining" then one's friends become his enemies and his enemies become his friends and everyone gets mixed up emotionally which takes YEARS to heal the wounds... It is really too bad.

Just seems that yesterday we were looking forward to school being out, and now here it is the middle of August and already we are giving thoughts to going back to school... and then again one of the things that worries me more than anything is that there are now less than 100 shopping days until Christmas, and I haven't even given my list a one-over... I'll probably be a "last-minute shopper" again.

# COMMUNITY HOSPITAL

Sierra Madre

Mr. and Mrs. H. J. Kuppens, who live in Arcadia at 46 Alice St., are getting to know their new daughter, Kristine, who was delivered at Sierra Madre Community Hospital on Friday, July 28, weighing 5 pounds, 4 ounces. The Kuppens now total a family of nine including Barbara, Thomas, Steven, Ronald, Scott Richard Robert Sandra and of course the wee one Kristine.

Schuyler Rand Porter arrived by Caesarian section at Sierra Madre Community Hospital on Friday July 28. He went home from the hospital last Friday to 495 Macdonald St., Pasadena to meet his sister, Jaasun Quinn, and take up his residence with his parents, Mr. and Mrs. Ted Porter.

Admitted to Sierra Madre Community Hospital for a two-day stay last week was Rene Houde, who lives at 545 W. Montecito Ave.

Terri Ann was the name chosen by Mr. and Mrs. Robert Gagliano for their daughter who was delivered at Sierra Madre Community Hospital Tuesday, Aug. 1. Her birth weight was 7 pounds, 7 ounces. The Gaglianos live at 1024 Oak Leaf Drive, Monrovia.

Residents of Sierra Madre, living at 708 Woodland Drive, are Mr. and Mrs. George Kistner who have a new daughter in their home. She was delivered at Sierra Madre Community Hospital on Monday July 31. Her birth weight was 7 pounds, 1 ounce. Her parents have chosen for her the name Suzanne Violet.

Shanin Dee was taken home by her parents from the Sierra Madre Community Hospital the first of last week. She was delivered on Saturday, July 29, weighing 8 pounds, 14 ounces. She is the daughter of Mr. and Mrs. Jerry Pogue who live at 7949 Virginia St., Rosemead.

Living at 84 W. Laurel Ave. are Mr. and Mrs. Richard Welsh, who are introducing their new daughter, Nicole, to their many friends. Nicole was delivered at Sierra Madre Community Hospital on Monday, July 31 weighing 6 pounds, 2½ ounces.

An overnight patient during the past week in Sierra Madre Community Hospital was Mrs. David Walleit, 461 Sturdevant Drive.

Deborah and David, daughter and son of Mr. and Mrs. Douglas Tucker of 62 W. Alegria Ave., underwent tonsillectomies at Sierra Madre Community Hospital last Friday.

## Legion Auxiliary Meeting Aug. 10

Sierra Madre Unit No. 297 of the American Legion Auxiliary will meet for its regular monthly business meeting on Thursday, Aug. 10, at the home of Edith Noshier, 265 N. Mountain Trail, at 8 p.m. The meeting will be presided over by the president, Bertha Billings. The budget for the year will be set up.

Members and their families enjoyed an outing and picnic on July 27 at Wilderness Park. A highlight of the evening was the killing of a young rattlesnake by picknickers at a nearby table.

The social meeting for August will be a sewing at the home of Thelma Proctor. Members are asked to come at 10 a.m.

Press chairman, Maybelle Barker, is a patient at Parkwood Convalescent Home.

Mrs. Sellwyn Myers, her son, Patrick, and his friend, Marcus Shobe drove down to Carlsbad for a week of swimming and relaxation. The weather was very nice, not as foggy or overcast in the mornings as it can get around the ocean. They got a good rest from the faster pace of living we have here and from our hot weather.

## Marie Elena Sorensen Exchanges Vows With William Hyrum Doutre

MR. and MRS. WILLIAM H. DOUTRE  
... married

A nearby restaurant was the scene of a luncheon Wednesday, July 12 that honored newly married Mr. and Mrs. William Hyrum Doutre. Hosts were the bridegroom's parents, Mr. and Mrs. William Max Douthett of Pasadena.

The wedding planned for July 5, then postponed indefinitely was quickly put together (in three days) when the bridegroom was home on military leave.

The morning of the 12th, the bride, Miss Marie Elena Sorensen, pledged wedding vows with her bridegroom in the Los Angeles Temple of the Church of Jesus Christ of Latter-day Saints.

Wednesday evening the couple greeted guests at a reception held at the home of the bride's parents, Councilman and Mrs. Severin L. Sorensen on Orange Grove Ave.

For the happy occasion the new Mrs. Doutre wore a floor length, empire and A-line styled taffeta gown with long, trumpet-shaped sleeves, and applied lace. The chapel train was caught up in back with a flat bow. A mantilla of matching lace carried out the Spanish styling of the gown. The bride carried a bouquet of butterfly orchids and stephanotis.

Maid-of-honor was Miss Denna Lyn Sorensen, the bride's sister. She wore a floor-length yellow bodice and white crepe Empire line gown. Carole Anne Douthett, sister of the bridegroom, was the bridesmaid. She wore a pink floor length, Empire lined gown. Both attendants wore mantillas and carried bouquets made of fans with daisies and roses.

Best man was Alfred Boyd Douthett, uncle of the bridegroom. Robert Janvier Douthett, brother of the bridegroom, served as junior usher.

## Cathy Depasco Honored At Party

Miss Cathy Depasco was recently pleasantly surprised by a birthday party celebrating her 18th birthday. The party was arranged by two friends, Jackie Marshall and Sue Germann, and at the home of Kathie Soho, 622 W. Alegria Ave. The guest of honor was the recipient of many lovely gifts.

The following friends were in attendance: Jackie Marshall, Sue Germann, Diane Rossi, Margie Murry, Kathie Soho, Debra Hartranft, Kelly Reiher, Alice Facteau, Rita Kerner, Chris Nelson, Steve Suter, Grahame Jones, Charles Bailey, Dave Soho, Mike Doyle, Sid Allee, Don Forst, Bill McKinnan, John Arnold, Rick Herron and Ray Kathol.

For her going-away costume the bride wore a white linen, bias-cut dress with brown accessories. The couple had only time for a short, short honeymoon as the bridegroom's military leave was up Friday.

For her daughter's wedding, Mrs. Sorensen wore a beige lace dress with beige accessories. The bridegroom's mother, Mrs. Douthett, wore a pink lace and shantung dress with pink accessories. Mrs. Joseph H. Remund of Salt Lake City, the bridegroom's grandmother, also stood in the receiving line and wore a green print silk dress. The three mothers wore butterfly orchid corsages.

The bride was reared in Sierra Madre, graduated from Sierra Madre Elementary, Ascension, Monrovia-Duarte High and UCLA. For the past three years she has taught fourth grade at Sierra Mesa.

The bridegroom attended Pasadena City College and served a two-year mission in New York for his church. He is now serving with the U.S. Army near Pittsburgh, Penna., where the new Mrs. Douthett will join him in late August and continue teaching.

## Euel Crabtree Awarded Purple Heart Medal

Marine Private First Class Euel A. Crabtree Jr., son of Mr. and Mrs. Euel A. Crabtree of 37 N. Auburn Ave., received the Purple Heart Medal for wounds in action against the enemy while serving with the Second Battalion, Twelfth Marines of the Third Marine Division in Vietnam.

Batteries of the battalion provide the artillery punch for the Third Marine Division. The "Big Guns," which range in size from the 155mm cannon to the 8-inch self-propelled howitzer, are reputed as being the deadliest artillery pieces in the world.

The unit is also engaged in a civic action program designed to assist the Vietnamese people in completing self-help projects, such as the building of wells, culverts, small bridges and schools. Equipment and materials for the projects are made available through the Marine Corps Reserve Civic Action Fund. Marines in Vietnam provide the know-how and guide the Vietnamese people in carrying out these projects.

A milk town, with 100,000 cows and 15,000 people, is being built near Mexico City to end that city's chronic milk shortage.

## FROM THE Fire Side

Everybody was surprised when the three firemen that attended the Scout Leadership Camp in Cimarron failed to show up at the first fire wearing cowboy hats. We figured Newbery, Tyler and Smith were bound to go "Western" on their return, but it must have been the wrong kind of a ranch. Oh well, better luck next time.

We hear Lee Graves almost got caught in the middle of a shoot-out somewhere. We find it a little hard to swallow. As big as he is he would have been hard to miss. And he didn't look like he was sporting any bullet holes when we saw him.

That's the trouble with some of these gun-toters now-a-days, their aim is lousy.

Around the area, some people thought it was snowing, but we found out it was just Lee trying to dig a fox hole in the car upholstery.

We see Leonard Hall is back from his vacation. They didn't want him back in Canada either. The way we hear it he was stewed pretty well most of the time. I think that's what they said, or something about trying to drink "Canada Dry."

Oh well, Canada's gain is our loss.

Stopped by to pick John Buchan up for drill and he comes to the door wrapped in a towel, making like Dorothy Lamour. John, let's face it some people just don't have it, and you've got to be in that category.

## Annual Iowa Summer Picnic In Long Beach

All former residents from the "Corn State," Iowa, their friends and families are invited to the 62nd annual Iowa summer picnic.

Held in Long Beach, at 7th and Park Ave. in the Recreation Park, it will be sponsored by the Iowa Association of Long Beach.

On Saturday, Aug. 12, the day will begin with registration at county and college trees, at 11 a.m. Picnic lunch can be bought at the concessionaire or brought from home.

After lunch, a concert will be given by the Long Beach Municipal Band. Their music will be selections by Iowa composers.

Program for the afternoon will include singing, introductions, entertainment and some very interesting speakers. Among those to speak will be Assemblyman James A. Hayes, representing Governor Ronald Reagan, a former Iowan, and Assemblyman Michael Cullen, representing Iowa's Governor Hughes. The entertainment will be provided by Penny Bell's "Stars of Tomorrow." Master of ceremonies Marshall Craig will preside over the picnic program. The Iowa "That's Where the Tall Corn Grows" summer picnic sounds like it's going to be a very delightful event.

### Mind Your Medical Manners

To help make relations between you and your doctor more pleasant and more productive, the American Medical Association has drawn up this guide. It spells out in simple terms what the patient and physicians can reasonably expect from each other, and we at Hartman Pharmacy thought it good and timely enough to pass it on to you, our friends and customers.

Keep your appointment (or notify the doctor's office when you know you can't be there). Even a few hours notice may be enough to allow another patient to take your place. Be prompt, but be prepared to wait. Unfair? Not at all. Diagnosis and treatment cannot be scheduled to an exact timetable, and emergencies do arise that upset the doctor's schedule.

Be cooperative in giving your medical history. Illness or injury in your past may have a direct bearing on your present condition.

Don't ask the receptionist or nurse for information about your condition, if it is not ethical. If you have questions, ask your doctor.

Fill in insurance forms correctly and completely before handing them to your doctor. It will save him much time if you will fill in as much as you can.

Take your medicine just as the doctor prescribes. Don't alter his timetable or dosage, and don't neglect to take medicine altogether. The medicine is ordered to help you get well, but it won't work unless it is properly used.

Be business-like in financial arrangements. Don't hesitate to ask about the doctor's fee, and discuss anything you don't understand. Also, your doctor has many business expenses to meet, and your prompt payment will help him maintain an efficient practice.

Rudolph R. Hartman

You have a good vacation when your self-winding watch runs down.

Peggy's adopted family have treated her royally. She finds the French people courteous, hospitable, quick to smile, and quicker to understand a stranger's way and they create an atmosphere of "at homeness." Every day something was planned to make Peggy's stay educational, stimulating and fun. Switzerland is but an hour's drive from Montbeliard and the countryside is beautiful. In her letters home she says the Swiss "cities" are just like

those described in "Heidi". Nearly every building has a magnificent clock. The department stores in Belfort are like those we have here in the states. Another highlight was an overnight journey to Ballon d'Alsace in the Vosges Mountains. At one art museum she saw the same exhibit that she had seen at the Los Angeles County Museum last year.

On July 26, the group left their "families" to start their camping trip through France. She has already visited Dijon, Chateauroux, Poitiers, and two days at the beach near La Rochelle. Her two cards to her brother Jim, were pictures of the beautiful cathedrals in Bourges. She describes the churches as gigantic carved jewels — she will never forget their soaring grandeur. Before

returning home the group will spend 3-5 days in Paris. Peggy will arrive in N.Y. August 24, spend a short time there with friends, and also stay with her uncle, Ronny Pulling, in Alexandria, Va., before returning home. Peggy graduated from PHS last June, where she maintained a 3.93 grade average, and was awarded Administration Honors for Academic Achievement and Faculty Honors in Achievement and Citizenship as an outstanding student in Life Science and mathematics. She starts as a freshman in September at Occidental College majoring in secondary education.

Peggy sends greetings from France to all her wonderful friends in Sierra Madre and is sorry she couldn't write letters to everyone.

## You and Your Neighbor

by LYNNE RICHARDSON

Mr. and Mrs. Harold Shearer on Woodland had a lovely week-long vacation at Sequoia, King Canyon and at the sand dunes by Santa Maria. They traveled with their relatives, Mr. and Mrs. Clarence Welch, and their daughter, Barbara, from Colorado. The entire family had a real good time. One of the highlights of their trip came when they visited Santa Maria and rode in dune buggies and sand saucers, which are not only unique and exciting to ride in or drive, but quite fast! Mr. Shearer was telling me they are powered by a V-8 engine. To visit the city of Santa Maria you can hardly imagine that so close to such a verdant place is a large area of dunes.

Mr. and Mrs. David Roes and their three girls, Mary, Ruth and Joy, were joined by Mr. and Mrs. Harry Moore on a lovely three-day vacation to Catalina Island where they all enjoyed the clear weather and healthy salt air. The highlight of their trip came when they took the flying fish boat ride at night. On a flat boat they taken out on the water and large beacons are turned on the surrounding area to attract the fish. These curious flying fishes leap out of the water and literally fly a few yards. Many times they will leap up so far that some of the boat passengers have had them jump in their laps before the evening's show is over!

Mr. and Mrs. Carl Gerke of 602 Mariposa always have something brewing, which isn't unusual, since they are not only parents, but grandparents 14 times. Their daughter, Margo, and her husband are down from Stockton with their three children, Hillary Jane, Carla and Kristina. They plan to visit for 10 days, see the sights and visit some of their friends. The Gerkes' granddaughter, Mary Gerke of San Marino, is in Pasadena Playhouse's production

of "Huckleberry Finn." She also was in the production they had of "My Fair Lady." This fall she'll attend first semester at Pasadena City College.

Mr. and Mrs. Lyle Seaman and their family, camped up at Yosemite this year, for the ninth time! Needless to say, they just love it. But this time it was the most beautiful they have ever seen. They were among the lucky people to witness a rare event. The heat wave which hit the weekend before the Fourth of July, caused the heavy snows in the high country to melt quickly, thus flooding the streams and rivers throughout much of Central California and the Yosemite region. With two-thirds of the trailer camp under water, the adventurous Seaman family stayed right by the swollen river to enjoy the excitement of the surging water and activities around it. The bridge near their camp which crosses the usually tiny river, was only six inches above the river itself. Everyone that could, tried their hand at riding the rapids on rafts. The extremely cold water and the fast rapids kept many from trying the sport any more than once. Mrs. Seaman was among the one-timers, but their daughter Darcy really took to this sport and didn't miss a day. Two of the most beautiful sights in all this excitement was the creation of two new falls because of the great excess of water. Before their ten days in Yosemite came to an end, the water subsided four feet (in many places it had risen to 12 feet) and things began to get back to normal. All in all the Seaman family had a very exciting vacation and chances are certainly high they'll be making a tenth trip to verdant Yosemite!

Mr. and Mrs. James Ross and their children Jack, Don and Janet just returned from a three week vacation. They drove back east to visit Mrs. Ross' mother and father, Mr. and Mrs. W. A. Herriman in Memphis, Tennessee and Mrs. Ross' sister and family, Mr. and Mrs. John Fisher and their five children in Baton Rouge, Louisiana. Jack, Don and Mr. Ross did most of the driving. They sure had a good time and wanted to stay much longer. Mrs. Ross hadn't seen her sister for six years, so she was especially anxious to visit with her. Their children got along real well, they are just about the same ages. One of the best times the Ross' had was enjoying the movies. The Fisher's had taken of their last visit to California. The Ross' took picture while they were back east and can hardly wait to see if they turned out! They have their fingers crossed though because it was the first time they had ever used their new camera. Now they're home and getting ready for Mr. Ross' sister and her family, Mr. and Mrs. J. A. McDaniel and their four children, to visit them from their home in Pocatello, Idaho. The families often see one another because Mr. Ross is a great fishing and hunting sportsman and Idaho is noted as a sportsman's paradise. The McDaniels plan to visit this area and their relatives for about two weeks, but they hope to spend a lot of time with the Ross family.

## Golf Event On Aug. 13

It seems the social golfing event of this season will be held at beautiful Whispering Lakes and its exotic Royal Hawaiian. Sierra Madre Golf Club will spend the day on that golf course on August 13 from 11 a.m. to 4 p.m., in a game of mixed foursome golf. Later in the evening an informal dinner (buffet style) and dance will be held in a reserved room of the Royal Hawaiian. Reservations are being taken by Mr. Boyd Smith at 355-7135 (City Hall) if any are still available. The limit is 20 couples.

Couples who are planning on enjoying the outing are: Ken and Jane Rickard, Roger and Barbara Kelley, Bud and Chris Hartman, Larry and Jane Bevington, Clarence and Annette Edner, Mickey and Mary Ferrar, Bob and Mozelle Simeral, Ron and Marion Cook, Paul and Miriam Bauman, Rufus and Edith Mayfair, the Max Gillises, Ralph and Edna Meeder, Sharkey and Dorothy Plumlee, Wake and Mary Angel, Ralph and Ann Hurwitz and Dominic and Mary Bellavia.

## The Tax Puzzle

If it's true, as Ben Franklin said, that in this world nothing is certain but death and taxes, it also is certain that few things can be more complicated and puzzling than legislating the latter.

California's legislature is illustrating the point. Consider the cigarette tax. Under Governor Reagan's revenue program it would be raised from 3 to 6½ cents per package, producing \$76 million. Cities and counties also would be allowed to raise cigarette taxes.

The increased revenues sound inviting, but what of the effects of the tax? As Madera Assemblyman Ernest N. Mobley points out, it's a \$50 a year nudge for a man and wife smoking a pack a day each. It throws a monkey wrench into the vending machine business. Local variations are headaches to chain stores. It's an invitation to bootleggers to import from lower-tax states.

For another example, take electric utilities. The Governor's bill would increase the sales and use tax from 3 to 4 cents on the dollar and extend it to electric and gas services for other than residential use. This would produce an estimated \$374 million.

As Richard H. Peterson, Pacific Gas & Electric Company executive and counsel, pointed out in hearings, however, it would be almost impossible for the company's electronic gas bill printing machines to sort out the exemptions among 135,000 bills a day. Further, there would be the problem of double taxation on companies buying gas for production of electricity. As much revenue could be achieved, Peterson pointed out, simply by extending property taxes to public and municipally owned utilities.

So it goes. Death and taxes are certain; the effect of each is more difficult to anticipate.

## Nor Rain, Nor Snow. . .

Add a long-standing but little known "nor" to the Post Office Department's noble motto about the non-stopability of its couriers, "Nor rain, nor snow, nor dark of night . . ." It is "nor competition."

Finding that it took the postal service as much as two days to deliver mail 120 miles to its Pueblo, Colorado, plant, CF&I Steel Corporation contracted with a regularly scheduled over-night armored truck service to carry its inter-plant mail on the 2½-hour trip from Denver headquarters, at a considerable savings. That, it turns out, was a criminal act.

The Post Office Department informed CF&I that a 1792 law states that "live current information" upon which the recipient is expected to "act, reply or refrain from acting," cannot be transported by any regularly scheduled carrier except the postal service. A private messenger service, OK. The alternative? Use the faster commercial delivery service, but pay the government the amount of postage that would be entailed if the mailman did the job.

CF&I stuck to its faster, more reliable service and paid the government its feather-bedding fee. Apostles of the Big-Government-Can-Do-It-Better dogma are stuck for an effective defense.

## A Bad Deal

One of the oddities of our affluent Great Society is the way in which certain interests are urging upon us the use of betting as a means of financing the better things of life. Education, for example.

New York State, which adopted a lottery law last fall, is launching a \$1,200,000 advertising campaign to bring in the suckers, in the name of better schools. They had a peachy slogan: "Better education for New York's kids, you can bet on it," but even the suckers, they decided, would find that a little obvious. So they changed it to: "Your chance of a lifetime to help education," a "chance" evidently being less odious than a "bet."

In California similar interests are promoting the current bill to escalate gambling by extending racing dates and authorizing night racing on the noble basis of boosting state revenues. The fact that the few gambling entrepreneurs will get as much as California's 21 million citizens, of course, isn't dealt face up.

New Hampshire's lottery has been a dud. New York's night racing has created great law enforcement problems. Californians on numerous occasions have said a firm "NO!" to various gambling propositions here. If the present proponents of escalated gambling in California want to make an outright appeal to the suckers, so be it. But to palm it off as a way of financing needed state services is a gratuitous insult to voters who already have shown that they know a bad deal when they see it.

## Costly Medals

In 1962 Maury Wills stole more bases for the Los Angeles Dodgers than anyone ever had before for any team in the majors. In 1966 Maury didn't even get to first base—with the U.S. Tax Court, at least.

Ordered to pay income tax on the fancy Hickok Belt awarded him five years ago as the outstanding professional athlete, Maury took his case to court. The court was sympathetic, but since the law clearly states that the only exemptions allowed are for awards in "religious," charitable, scientific, educational, artistic, literary or civic achievements, it ruled Maury must pay up.

Now there are a lot of Los Angeles citizens who would call that base-stealing record a definite civic achievement. And we're not so sure it doesn't fall into the scientific, artistic and educational categories, too (consider what it taught opposing pitchers and catchers). But our greatest concern is: since the law must stand, what about those cups and plaques for weekend golfers who break 100, or bowlers who hit 250, or players who skunk their domino opposition? A whole new bureaucracy can open up for the Internal Revenue Service!

## Sierra Madre News

Published every Thursday at 9 Kerating Court, Sierra Madre, California, Los Angeles County, Post Office Box 37, Zip Code 91024. Telephone 355-3324 or 355-3325. The Sierra Madre News, Official Newspaper of the City of Sierra Madre is declared a Newspaper of General Circulation for the publication of legal notices, as defined by Section 460 of the Political Code of the State of California, in the Superior Court of Los Angeles County August 19, 1936. Adjudication Decree Number, 404,794.

A First Class Newspaper entered as Second Class Matter at Sierra Madre Post Office October 2, 1906, under Act of Congress of March 3rd, 1879.

R. Robert Evans }  
Peggy L. Evans } Editors and Publishers

Subscription Rates: In Los Angeles County — \$5.00 per year. Elsewhere in the United States \$5.50 per year. Foreign Countries, Air Mail, Second Class, priced upon request.

NOTE—The opinions expressed in credited columns of the Sierra Madre News are those of the writers and do not necessarily represent those of the News. Letters addressed to the editor of the News are welcome, however, they must be signed with correct name of the writer. The writer's name will be withheld if requested. Individuals may feel free to express their ideas insofar as they remain within the bounds of propriety, however, letters attacking individuals or personalities will not be published.

## by DR. HENRY V. WITTY

Management of this newspaper is not capable of answering questions to this column; however letters to the editor will be published.

A real congressional "don-neybrook" looms on the horizons as opinions from home begin to trickle in to both Senators and Representatives.

Three impending treaties between the United States and Panama have been denounced as a threat to our economic strength and our military capability, including our ability to support our troops in Vietnam.

Congressman J. Herbert Burke (R., Fla.), evidently having in mind we would be turning over to the Panama government control that could paralyze the operation of the Canal, warned "we have no guarantee that a Castro-type government would not come into power in Panama."

Congressman Daniel Flood (D., Penn.), who has followed Canal Zone matters closely for years as a member of the Appropriations Subcommittee for the Department of Defense, says the Canal, as our jugular vein, would be placed in jeopardy by these treaties, as they are reported. ("As reported" is a term frequently heard because at the writing date of July 11, 1967, the texts of these treaties are still secret.)

Flood told his colleagues how the Panama Canal is marked for Communist conquest: "The struggle in which our country is now engaged against aggressive Communism is global and transcends all questions of partisan nature. The Panama Canal, as the key strategic point in the Western Hemisphere and the greatest single symbol of U. S. prestige and power, is marked for a takeover by Red revolutionary force."

"Its loss will serve as a mighty spark to encourage and activate Communist revolutionary overthrows of constitutional governments not only in other Latin American countries," he said.

"Moreover, such loss would make a calamitous impact on other crucial strategic spots—Southeast Asia, where our fighting men are dying; Gibraltar, the gateway to the Mediterranean; the Suez Canal, already under Soviet domination, and the Red Sea, the transportation artery to the Indian Ocean; and southern Africa, which dominates the sea lanes around the Cape of Good Hope," Flood said.

Due to the veil of secrecy, Senator Strom Thurmond (R., S.C.), was forced to rely upon "rumors and press accounts" surrounding the negotiation of these treaties in remarking upon the subject. He said the issue was whether there would be a "weakening of American power and prestige" and whether billions of dollars "down the drain" will have a dramatic effect on our economy.

There is concern on Capitol Hill that the public will be kept in the dark on provisions of the treaties almost up to the time of a Senate vote on ratification. Such railroadings have been practiced as a tactic to overwhelm objections with silence.

And just as sure as "God made little fishes" . . . One way to be sure that crime does not pay would be to let the government run it. . . . I hope, I hope, I hope.

gans of "Don't let the President down."

The Administration view was put forth by Senate Majority Leader Mike Mansfield (D., Mont.), in a speech on the Senate Floor on June 26.

Mansfield cited with approval an editorial concerning the original 1903 treaty as a "product of Teddy Roosevelt's arrogance" and attacked criticism of the new treaties as "rigid super-nationalist elements."

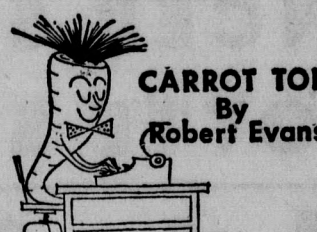

House Concurrent Resolution 389, introduced by Congressman Durward G. Hall (R., Mo.), expresses the sense of Congress that the United States "maintain and protect its sovereign rights" in the Panama Canal and not "cede, negotiate, or transfer any of these rights."

The resolution noted that 70 per cent of the Canal Zone traffic originates in U.S. ports. The Panama Canal could be closed to our ships if we choose to give away control.

Let's not be snookered out of the Panama Canal by our silence.

If you don't want our politicians to give it away—then write and tell them so—now!

—Thanks to Freedom Press.

Any day now we will welcome our new Chief of Police. As we understand it, he should take over the reins of the department come next Tuesday. We do wish him a great amount of success and at the same time offer thanks and congratulations to Bob Heasley, who has been interim Chief since April. A better reward than just "Thank You" should be in the offing, especially so when one understands that he will forego his vacation to help the new Chief get off the ground.

In closing the column for this week, I will give you a few statistics that will sober you up . . . "Since 1930 U.S. population has increased 60% and per capita income is up 300%, but the cost of federal government has skyrocketed 5,000% . . . the national debt is up from 1930's \$15-billion to \$330-billion today . . . This represents \$6,000 indebtedness for each and every American family. Interest alone on our credit card public financing is near the \$14-billion total . . ."

"Public opinion can and must be motivated to bring about a balanced budget, a ceiling on spending and an immovable lid on the national debt."

And just as sure as "God made little fishes" . . . One way to be sure that crime does not pay would be to let the government run it. . . . I hope, I hope, I hope.

## Ten Years Ago:

August 8, 1957  
Deer season opened with its usual mass of confusion. There were 16,000 hunters and 225 deer. Among the lucky men to bag these rare creatures was Lester Anthony, who got a 125-pound buck!

There's a double header in City Park this Friday night when the Sierra Madre Band will perform a concert following the presentation of the awards to the Little League winners. Mayor Charles James will be master of ceremonies. Recognition also will be given to the All Star team for this season.

American Legion Auxiliary recently installed officers for the new year. Mrs. Ethel Stein, president; Mrs. Bernice McCloskey, first vice president; Mrs. Rose Galkin, second vice president, and Mrs. Hazel Taylor, installing officer, have this coming year's positions of leadership.

Twenty Years Ago:  
August 14, 1947

Wisconsin "Badgers" will gather in Sycamore Grove Park on Aug. 23 for their all-day reunion picnic. An Indian program of music and tribal dancing will be the highlight of the events.

Lt. Col. David Allen will join the Sierra Madre Bank following a two-month vacation. He will leave the service on Aug. 8, after serving our country and the United States Army for six years.

Sierra Madre and the remainder of Monrovia Health District are free of poliomyelitis and scarlet fever, according to District health authorities.

Thirty Years Ago:  
August 10, 1937

Joint installation of the American Legion and its Auxiliary saw the two presidents installed in their offices. Commander Sam Graham is the new American Legion heard and the Auxiliary's leader is Mrs. Edna Hearty.

For rent: three-room furnished house at 88 Victoria Lane for \$25 a month. For sale: 2 nice building lots in Pegler Park for \$700. For sale: 1928 Oakland, good shape, original owner, and in excellent condition.

Lamb legs are on this week for 27cents a pound; beef roast is 21 cents a pound and boneless roast is 33 cents a pound. Premium bacon will be at its usual price of 20 cents a pound.

Fifty Years Ago:  
August 10, 1917

One four-room unfurnished house with bath, electric lights, large yard and barn is for rent at \$12.50 per month. It's located at 180 N. Mountain Trail.

Born on Aug. 4 to Mr. and Mrs. Johns Furneaux, a baby boy, Jack Jr., weighing 9 pounds and measuring 21 inches.

A big Masonic picnic will be held in the Lincoln Park in Los Angeles on Aug. 18. No expense but carfare or gasoline to get there.

# Meet one of California Federal's Big Money Families.

## The Kearneys of Northridge have 6 children and 7 savings accounts.

Jack and Evelyn Kearney start all their youngsters saving at California Federal at the cradle stage. And keep them at it. Smart parents. (They have their own joint account!) Saving regularly builds thrift habits and confidence in kids. Adults, too. And it can build the Big Money. Especially at California Federal. You earn the nation's highest yield on insured passbook savings. Your money can double in less than 14 years at our current rate and compounding. And you always get the Big Money treatment at the nation's largest federal. Friendly service. \$1.4 billion assets-strength. And you can get it with just one account, any size.

Nation's highest earnings on insured savings.

5.127% annual yield on passbook accounts when savings and all dividends remain a year, if our 5% current annual rate is compounded daily and maintained a year.

5.25% on new bonus accounts. 3-year bonus certificates on \$1,000 minimum accounts earn ¼ % yearly bonus above base rate for the period starting July 1, 1967. Payable at end of 3-year period. (Bonus & current 5% base rate=5.25%)

Dividends paid quarterly. Funds received by 10th of any month earn from first of month. After the 10th, funds earn from date received. Funds in account 3 months earn to day withdrawn. Accounts insured to \$15,000 by a permanent agency of the U.S. Government. Established in 1925. Federally chartered and supervised.

SIERRA MADRE NEWS—Thursday, Aug. 10, 1967

## As Ives Sees It

... Harmon Killebrew will hit 50 home runs ... The two pro soccer leagues will merge ... Dick Williams will get a fat pay raise from Tom Yawkey for keeping the Sox in the A.L. race ... The Dodgers wish they had Sandy Koufax ... The Ram season success depends on Roman Gabriel ... Cassius Clay could whip all four of the pretenders that "fought" in Houston last week, and do it in six rounds ... Green Bay will easily win their division over Chicago, Detroit and Minnesota ... I mean easily.

THIS TIME LAST YEAR ... Rink Babka was voted the outstanding athlete for tossing the discus 207.4 feet in the first Rose Bowl Invitational ... Billy Casper became first pro to win four tournaments during the year with 11-under par win in Speedway Festival.

## Fire Call 89 E. Laurel

\$3500, as he gave a caution note to all homeowners and renters to check their closets, rear entrances and out of the way places for rags that may have been carelessly tossed. This is the time of year for spontaneous combustion. In a direct statement he stated: "If it had not been for the quick response of the equipment and men, another three minutes would have found us with three homes in blaze, so by checking your property now you may not only save your own home from serious damage, but your neighbors as well." He concluded with: "Always call your fire department immediately, 355-1401; this will help minimize the damage."

Trucks and men were again called into service at 5:35 Saturday afternoon to a car fire at 685 N. Auburn. Before arrival it was reported that the fire was out. Inspection by Fire Marshal Ludden determined that the 1965 Ford, in the driveway of the W. P. Wesley home had just been parked after a trip, his estimation was that the transmission had become overheated causing the transmission fluid to catch fire. Twenty men and one reserve answered the call. Fire Chief Charles Brown estimated, no damage.

Boy Scouts at the World Jamboree in Idaho will consume 176 thousand quarts of milk, 37,000 loaves of bread, 51,000 pounds of fresh meat and fish during their 9-day encampment.

**"Let's Talk Dry Cleaning"**

by Joseph Delgatto Sr.

While diamonds may be called a girl's best friend, hand-knits are one of her best loves. Knitted garments of both the hand-knit and machine-knit variety are one of the special favorites of this year's fashions.

Knitted garments and fabrics have a greater tendency to change shape during cleaning than woven ones. This is due largely to the fact that knitted materials can stretch in one direction and at the same time shrink in the other. Also, knitted clothes are likely to lose their shape during wear. For this reason they require frequent cleaning and blocking to restore them to their original shape and dimensions. This is true of fabrics and garments knitted of wool, cotton, rayon, nylon and combinations of yarns.

With knitted materials, as with all fabrics, your cleaner must analyze the yarn fibers to determine just which cleaning compound to use. Blocking and finishing of knitted clothes takes special skill, too.

You can trust your knitted garments to us, and know that they are in capable, responsible hands ... that they will be painstakingly handled during cleaning, blocking and finishing ... and returned to you impeccably clean and new-looking.

Free mothproofing on everything we clean.

**\$13,938 For SM Streets**

Board of Supervisors recently approved allocation of \$13,938 to assist the City of Sierra Madre in the maintenance of the City's Select System of Streets during the fiscal year, announced Supervisor Warren M. Dorn.

"Cooperation between the County and its cities makes possible the development of highway projects in the best interest of the public, said Dorn.

A total of \$10,138,000 is budgeted by the Board of Supervisors to assist the 76 cities in the County for maintenance and construction of streets of general interest.

**First Western Assets Reach \$850 Million**

For the first time in its corporate history, First Western Bank assets reached the \$850 million mark, according to an announcement made by Stafford Grady, president of the statewide bank. The assets figure was attained during the first half of 1967 and is expected to average above that mark beginning in July. Deposits also reached an all time high — \$750 million, during the first six months of the year.

Loans for the month of July averaged more than \$500 million dollars, the first time that figure was reached by the 6½ year old bank.

Formed in 1961 with assets of \$512 million dollars and 66 branches, the bank now maintains 82 offices throughout California. On schedule for opening this year are offices in Santa Monica, Huntington Beach and downtown Oakland.

Look for your neighbor in church this Sunday.

**You and Your Neighbors**

by LYNNE RICHARDSON

The Arthur Olsens, the Chris Housers and the Jerry Zollingers all got together on the 19th of July to celebrate three birthdays. The three honored were Jackie Olsen, Peter Houser and Michael Zollinger. They each are the second child in each family. The mothers all knew each other before their babies were born. They didn't expect their children to arrive so closely together. But a late arrival and an early arrival had the trio born within days of each other. Peter arrived the 27th, Michael the 30th and Jackie the 31st. The party was a picnic for the three couples, the birthday children and their three older children. The 12 enjoyed all the yum-yum food that comes with a picnic. Later, the parents tried, in vain, to get some pictures of the lively trio. The party ended in more of a cake throwing than anything else. But everyone had a good time and the birthday children especially liked the carefree atmosphere minus the usual restrictions to proper eating habits. After all, on one's birthday, one should be able to live it up a little!

Robert and Benice Conner of 175 E. Sierra Madre Blvd. are looking forward to September 16. Mrs. Conner's sister, Ann Long, and her little daughter, Katherine Ann, who is 6 years old, are arriving from Montreal, Canada. They plan to visit for two weeks. The conners are excited to see them. Their first visit was in 1964. Mrs. Long is an x-ray technician and has her vacation then. Already planning a wonderful time for them, the Conners have lined up a list of local sights to visit, plus a look at San Diego Zoo and Sea World. They plan to take short side trips to Las Vegas, the Yosemite and Sequoia Valleys. Mrs. Conner says they are especially excited to see their little niece, whom they haven't seen since she was a baby. With all the planning and

places to go, sounds like Mrs. Long and Katherine are in for a great vacation!

Steve Anthony has completed his four years of service in the United States Air Force. This last year he spent in Thailand, where he was a bomber mechanic. Upon his arrival home his plane touched down at Travis Air Force Base. Steve's wife, Teddy, and their little son, Tommy, were there to greet him. It was the first time he had ever seen his young son. Paul, Steve's brother, was at the base to greet him, too. He managed to get some candid pictures of the reunion of the young family. Got some real cute shots, too! They enjoyed a welcome home barbecue party at Steve's parents' home, the Lester Anthony's. They plan to settle down here and start making future plans.

**New Officers**  
The San Gabriel Valley Chapter of the National Association of accountants honored its newly-elected officers and directors at a recent dinner meeting held at a restaurant in El Monte. Installed as president of the 250 member organization for the coming year was Mr. Paul C. Kolves of San Gabriel.

**Begonia Meet**  
The San Gabriel Valley Branch of the American Begonia Society, will meet August 11, at 8 p.m. at the Los Angeles State and County Arboretum, 301 N. Baldwin Ave., Arcadia. Mr. Steve Talmadge of "Talmadge's Fern Gardens" in Chula Vista will show slides and have a new program about ferns. Guests are most welcome.

## Textbook Bill Killed in Senate Committee

A bill aimed at giving the local school districts a broader field of textbooks to choose from was killed in the Senate Education Committee last week.

"I was sorry to see what I believed to be a non-partisan piece of legislation that is vitally needed, killed on a partisan vote in the Senate Education Committee," so stated State Senator H. L. Richardson (19-R.), a member of that committee. "Assembly Bill 20 was simply aimed at allowing the State Board of Education to adopt three to five textbooks in five subject fields, which, in turn, would give the local school districts a choice of textbooks to choose from. After the controversy over the adoption of the history book, 'Land of the Free,' with no provision allowing the local school districts to choose any other text, it seems to me that that proposed legislation would have been good for education. I personally feel that Assembly Bill 20 was well developed and could have been meaningful and important legislation," Richardson concluded.

## PLANNING COMMISSION'S CIVIC CENTER PRESENTATION

This is part two of the report of the Sierra Madre Planning Commission's report on the proposed Civic Center as presented to the City Council at its June 25th meeting.

### III. Separated Facilities

During our discussions with the various operating departments it became clear that each of the various groups could operate independently of each other if necessary. Through the efforts of subcommittees as well as individual commissioners, both present and past, an attempt was made to analyze the several alternatives regarding functional combinations and site location. The possible arrangements of the three departments are as follows:

- All combined .....AFP
- All separate .....A-F-P
- Fire and Police combined, Administration separate FP-A
- Police and Administration combined, Fire separate .....PA-F

e. Fire and Administration combined, Police separate .....FA-P

Despite considerable attempts throughout the study, the commission has not been able to develop any cogent reasons for the separation of any of the listed activities into separate facilities if adequate area can be provided at a single site.

### IV. Combined Facilities

On the other hand there appears to be several clear advantages, and some quite intangible ones, for locating into a common facility. Some of these are:

- The best possible arrangement for necessary and economical communications between departments.
- The best possible arrangement for convenient communication between citizens and departments.
- The most effective and economical use of parking spaces.
- Smaller total structure needed because of potential use of common spaces.
- Single structure generally less expensive to build.
- Single structure generally less expensive to operate and maintain.
- In general will require the least total land.

For the reasons listed and in order to crystallize upon a finite number of alternatives, the Planning Commission decided to direct most of its attention to the combined arrangement as a sound approach toward providing the most efficient and economical Civic Center. This was done in spite of reservations by some members that final determination might possibly be made on subjective judgment.

### C. Site Size

I. General Considerations

In considering the space required to perform the various city functions, the Planning Commission:

- Discussed with each department head the required areas affecting service.
- Reviewed all available data concerning previous

studies.

- Applied known standards of space use.
- Considered effect of single-story versus two-story construction on site size.
- Determined the total site area to include space for Administration, Council Chamber, Fire, Police, Public Facilities, Parking and open spaces.

### II. Building Size

The study attempted to assess the city's building requirements for the next 20 years. We realize that exact areas may be modified in the preparation of final plans, with the area to be assigned to Public Facilities being potentially the major variable. The areas estimated for each of the various departments is summarized below and detailed in Tables I through IV of the appendix.

Approximate Area (Sq.Ft.)	
Administrative:	
Council Chambers	6,660
Fire	4,500
Police	3,300
Public Facilities	3,500
Net Area	17,960
Walls, Corridors, Restrooms, etc., at 50%	8,950
Estimated Gross Area	26,910

To Be Continued

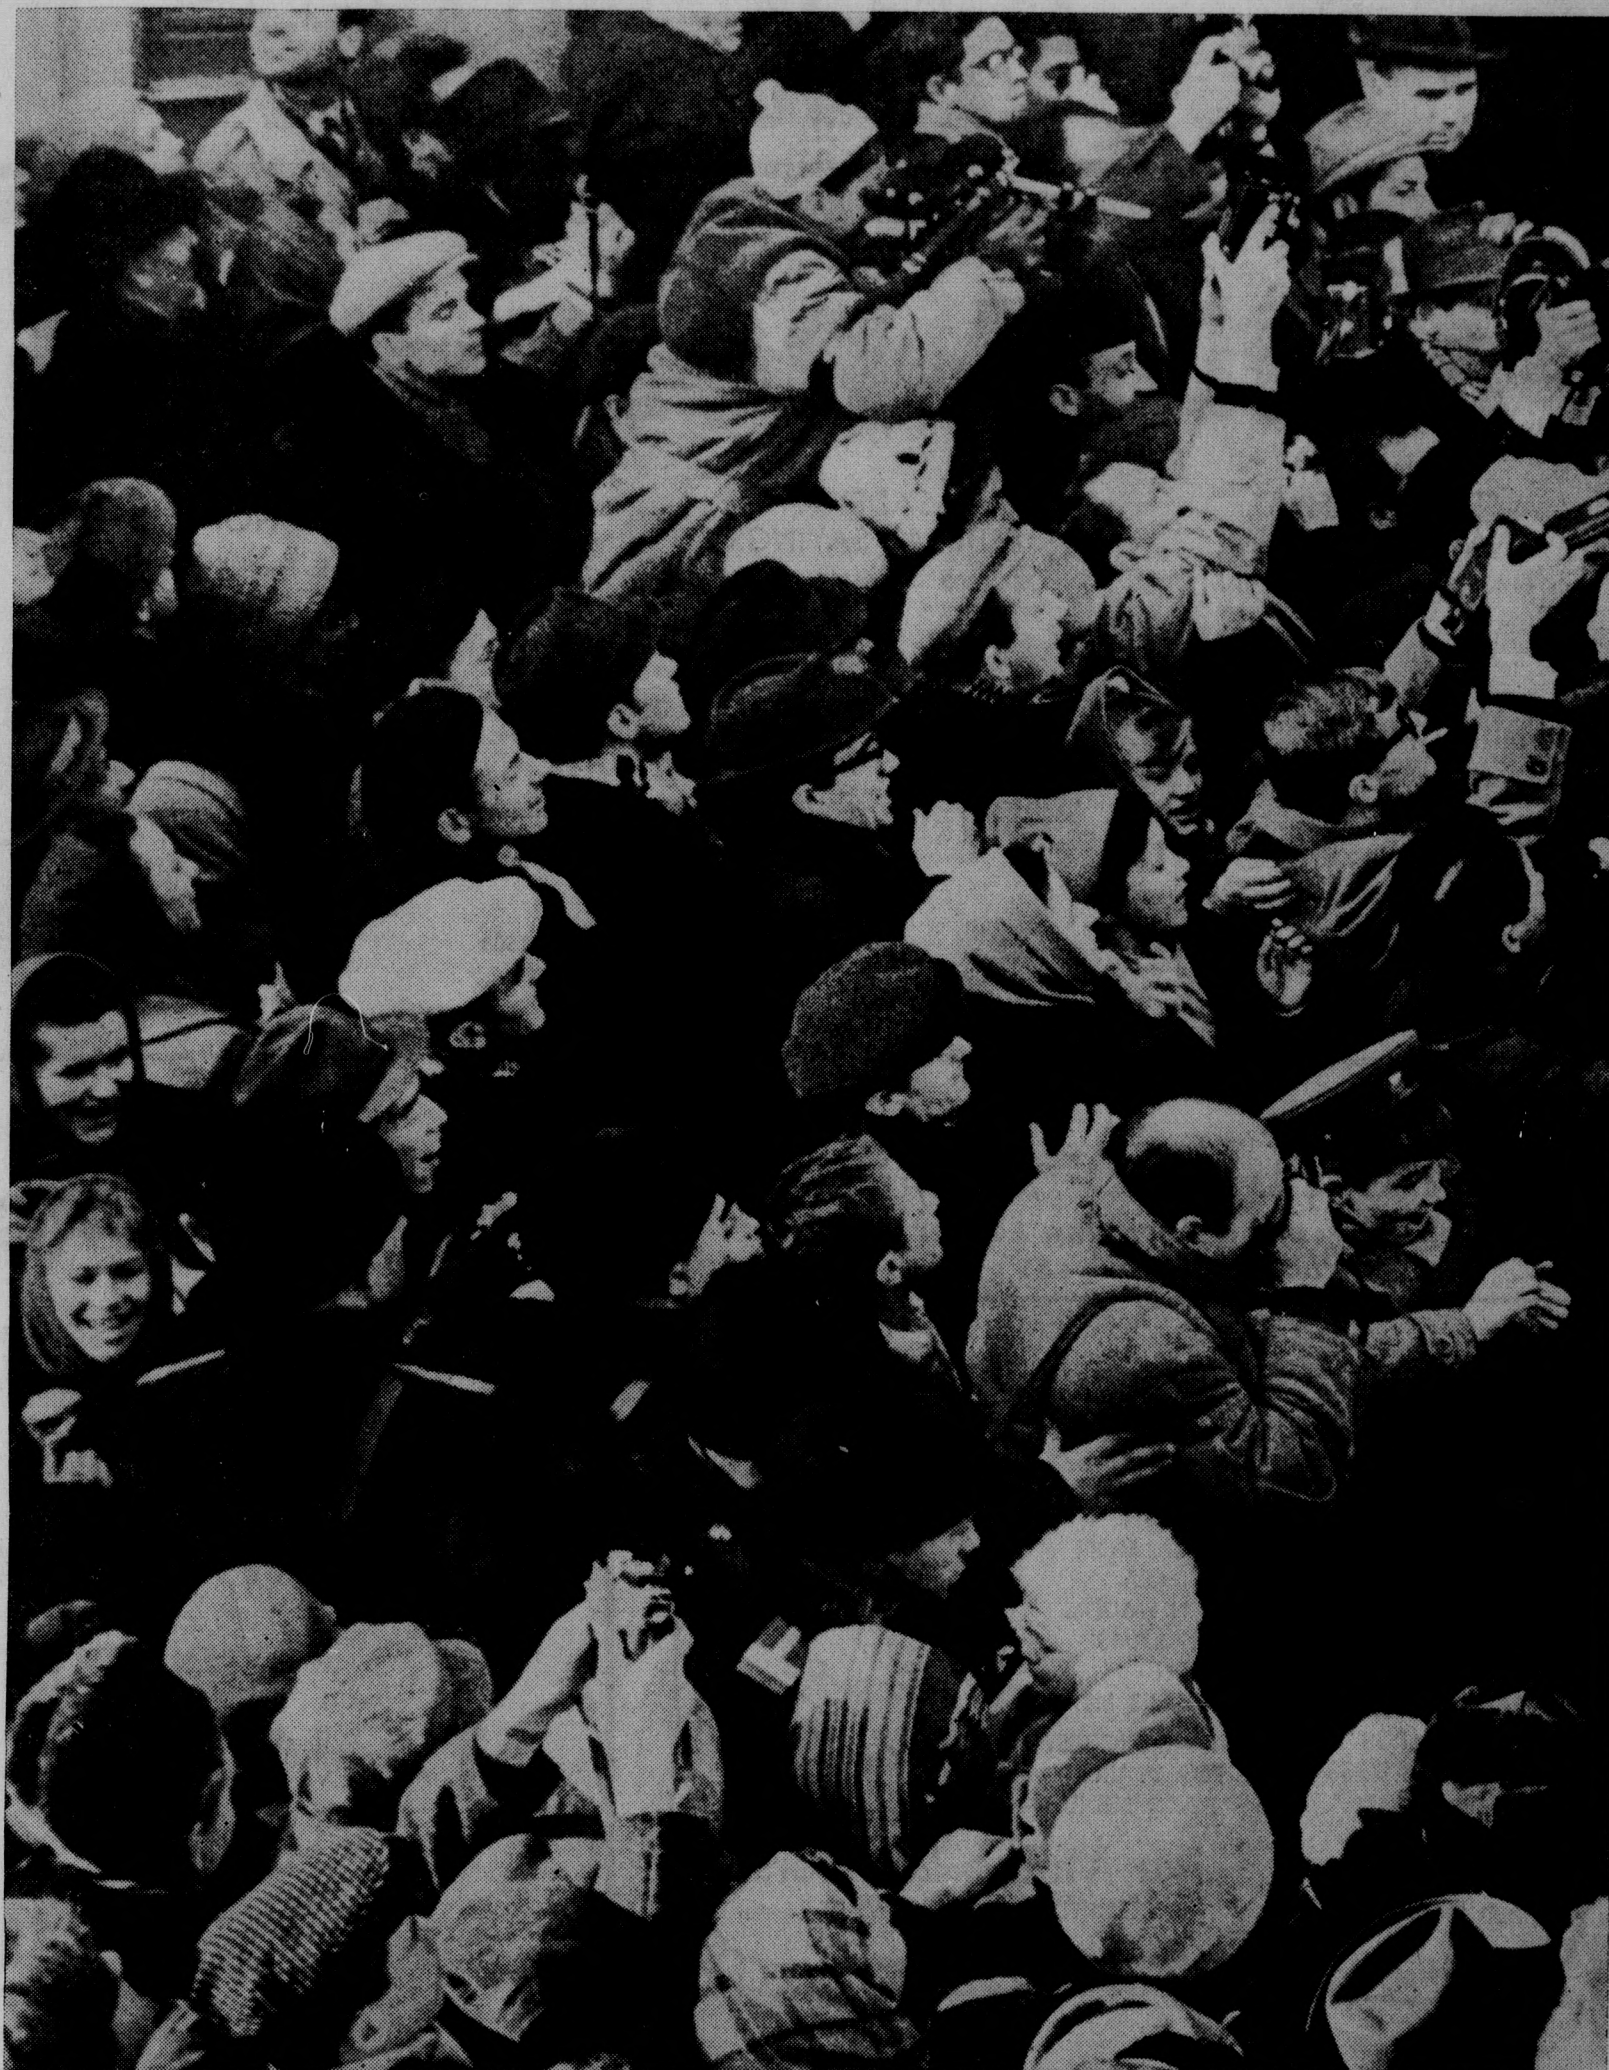

### Car Wash

A car wash will be held at the Richfield service station, 1505 S. Baldwin Ave., Arcadia, on Saturday, August 12 from 10 a.m. to 5 p.m. by the Arcadia Assembly 131, International Order of Rainbow For Girls. Chairman for this project will be Miss Cindi Hoffman of Sierra Madre. Donations for the car wash is 98 cents. Funds from this project will go to the Grand Worthy Advisor for her charity project, and will be used to train a physiotherapist to work with the physically, as well as the mentally retarded children.

## SPORTS AS Hank Ives SEES IT

### LITTLE THIS-N-THAT

Thank goodness Old Hankus doesn't have to rely on his peerless prognostications to provide 'taters and beans for his family. I mean the swami profession has a very limited membership. The world is full of starving fakirs and houndinis.

Just take a look at Hankus' pennant picks for 1967. Would you believe Pittsburgh and Baltimore? Why one day last week a check of the standings showed them both to be trailing the leaders by 13½ games. That's a long way to be in arrears in your pennant-pinching plans.

BALTIMORE was so low in the standings that they sported a 46-57 won-loss ratio the same as the Dodgers. I don't mean to knock the Dodgers you understand, after all they are performing just about as capably as they can. Walter Alston is still one of the best managers in the business. It simply shows the amazing success he had in recent years.

FOR LOCAL FANS wishing to have their San Gabriel Valley All-Star grid ducats clutched in their hands when they arrive at Citrus Stadium, Thursday night, August 17, they can purchase them at the Vogue Cleaners in Sierra Madre or at Irv Noren's Sporting Goods in Pasadena. Just \$2 for adults and \$1 for kids. That's some bargain.

DON AUTRY, DAVE BUCHANAN and ROD MARENILLI, three members of the South All-Star team that played in the Shrine Game, will be in Ray Solari's West lineup. The Westerners are working twice-a-day at Pasadena City College while Ken Wells has his Eastern aggregation going at it twice daily at Citrus College.

THE RAMS AND COWBOYS lift the lid on Coliseum professional grid wars Saturday night in the 22nd renewal of the Times Char-ity Game. While the Rams failed to look like world beaters in their 16-7 conquest of New Orleans, Cowboy coach Tom Landry still maintains that George Allen's troops will be "right there" in their divisional race with Baltimore and San Francisco.

"It is very difficult to get your team high for a season's opener against an expansion team," stated Landry. "That defensive line is really something."

As Sid Ziff commented in his column recently, the "Fearsome Foursome" of Lundy, Grier, Olson and Jones is well worth paying the price of admission to see.

DANDY DON MEREDITH guides a multi-offense Cowboy attack that missed the NFL title by perhaps 72 inches. The Dallas camp won't soon forget that loss at the hands of the Green Bay Packers in what many observers have called the most exciting game in the past 10 years.

THE COWBOYS have a real thing in their backfield. Real cowboy that is. He's Walt Garrison, who not only played collegiate ball for

the Oklahoma State Cowboys but is also a real lasso tottin' cowpoke who ropes calves and wrestles steers on the rodeo circuit. Garrison looked like money from home in the Dallas intrasquad scrimmage last week, picking up 56 yards in 13 carries and showing great second effort.

LOOKS LIKE THE 1967 SOCCER SEASON will close out with a real smasher in the Coliseum. Eusebio, "the Black Panther of Mozambique" will be back with his Benfica of Portugal team to play Boca of Argentina, Saturday night, August 26. Last time Eusebio was here over 20,000 fans turned out to watch his team beat Manchester United 3-1.

**Sierra Madre Congregational Church**  
"The Church of the Singing Tower"  
Adult Worship — Church School — Child Care  
10:00 o'clock  
"Faith For Our Day"  
Rev. Samuel W. Keck

### Congregational Hears Rev. Keck

"Faith For Our Day!" This will be the subject of the message to be brought to Sierra Madre Congregational Church at its 10 a.m. worship service Sunday by Rev. Samuel W. Keck.

Rev. Keck has been a resident of California since 1960 and has had interim pastorates in Hawaii, San Dimas, Ventura and San Bernardino. For eight years prior to that time, he served as Associate Secretary of the Board of Home Missions of United Church of Christ headquarters in New York. Rev. Keck is a native of Dakota where he was a pastor for 12 years, and Con-

ference Superintendent for 24 years.

### Christian Science Sermon 'Soul'

"Soul" is the subject of this week's Bible lesson to be read in all Christian Science churches this Sunday.

The Golden Text is from I Chronicles: "Is not the Lord your God with you? and hath he not given you rest on every side?"

... Now set your heart and your soul to seek the Lord your God."

### To Speak At Sunday Services

Due to unexpected plans Elaine St. Johns will be unable to fulfill her speaking engagement at The Santa Anita Church on August 13. She will speak, however, at a later date when she returns from New York in the fall.

Rev. Margaret Stevens, Associate Minister, will speak at the 11 a.m. worship service at The Santa Anita Church, 226 W. Colorado Blvd., Arcadia, on August 13. Her subject will be, "The Power of Non-Resistance." The church says: "Come bring your friends and receive a blessing."

After a sermonette es-

pecially for the young, the young people go to their Junior Church graded classes for spiritual education. The classes are from kindergarten through eighth grade. High School Youth attend the Sunday morning service and have their evening meetings the first and third Sundays of the month at 7:30 p.m.

The Ethel Barnhart School, formerly the Santa Anita Church Day School, is taking applications for the 1967-68 school year. Miss Mae Carden will be in charge of the school next year. This is a public day school from kindergarten through eighth grade, meeting the requirements of the Department of Education of the State of California. Please call 446-8206 for further information.

There is a time for special prayer requests at the 11 a.m. meeting for all women on Thursday, August 10, led by Rev. Margaret Stevens. All women are invited. Dial-For-Prayer, 447-6162.

### Faith Lutheran Has Missionary Serving Nigeria

A Lutheran Medical Missionary to Nigeria will address the Sunday school departments at Faith Lutheran Church, 845 Hastings Ranch Drive, at 9 o'clock next Sunday morning.

Mrs. Dorlie Fairbanks of Oakland, recently evacuated from the African country because of the political unrest there, will illustrate her address by means of slides. She is a personal friend of Mr. and Mrs. Donald Hingst, the church's minister of education and youth, and his wife.

Holy Communion will be celebrated in the 10 o'clock Sunday morning worship service, with Pastor Armin Hesse presenting the Communion address. Mrs. Regie Hart of Alhambra will serve as the guest organist.

Youth activities scheduled next week: the Walther League Choir on Monday night at 7:30; the Walther League sport night on Wednesday at 6:30; the J-Y sport night for the junior high age on Thursday at 6:30; and the District Walther League convention at Biola College in La Mirada from Friday through Sunday. Attending the convention with Mr. Hingst will be: David Fair, Debra Fair, Jill Johnson, Bruce Curl, David Reed, Colette Beckler, Mia Wessels, and Lee Pansoska.

To culminate plans for the Children's Vacation Bible School, to be held August 21 to September 1, the instructors and helpers will meet next Tuesday night at 7:30. Children entering kindergarten up through the ninth grade may be enrolled by contacting the church office, 355-3306.

**Senior Citizens Have Luncheon; Hold Meeting**  
The weekly meeting of the Senior Citizens was called to order at 11:45 by the President Frances Gardner. Mr. and Mrs. Charles Ring were welcomed back from their vacation. Minette gave the prayer, the salute to the flag, and in the absence of Vivian Singleton, pianist, Edna Grier played, "The More We Get Together."

Guests for the day were introduced by the president; they were Sally Hays, and Mr. and Mrs. Edwin Godley. Everyone brought their own lunch and there was much sharing of tea, coffee and ice. The business meeting came next with the reading of the minutes of the previous meeting by Dorothy Crouchley, the secretary. Helen Wheeler, the treasurer gave the report of the club's financial standing.

Ms. Ring, tour chairman, told of trips in the future. Mrs. Patterson, membership chairman, introduced Mr. and Mrs. Herman Dokken and Mr. and Mrs. Edwin Godley as new members. Many of the members plan to go to Anaheim to the ball game on August 11. Mr. and Mrs. Martin Olson were among the folks who attended the Dodge game.

Their being no other business, they adjourned for a delightful program. Pictures of Arizona on the Supra Indians' Reservation and Grand Canyon were shown. The pictures were taken by Mr. Arnold, of Arnold's Hardware and were shown by Mr. Embree.

Of the nation's food supply, milk provides nearly one-fourth of the protein, three-fourths of the calcium, and nearly one-half of the riboflavin, in addition to other nutrients.

### Rev Stevens To Be Associate Church Minister

Reverend Margaret Stevens has been called by the board and congregation of the Santa Anita Church of Arcadia to be its first associate minister. She will coordinate the various activities of the church, teach the adult classes beginning in October and fulfill many necessary functions. Since the recent on-going of Dr. Ethel Barnhart, founder-minister of the Santa Anita Church, the pulpit is being supplied by outstanding guest speakers in the metaphysical field.

Having received her ministerial training under Dr. Carmelita Trowbridge of the Alhambra Church of Religious Science, and for two years having served as Minister of Education and Youth in that church, she is well qualified to serve as associate minister of the Santa Anita Church. For the past year she has been youth director of the International New Thought Alliance and will continue in that capacity. She is also a member of the executive board of the I.N.T.A.

Rev. Stevens resides in Altadena with her husband, Roger S. Stevens, flutist with the Los Angeles Philharmonic Orchestra and their three children. The eldest son, Roger E., a senior at U of C at Berkeley, is with the New York Mets, baseball organization, now playing in Durham, N.C. David, a freshman at PCC, has just returned from a 6-month tour as drummer with Moral re-Armament's "Up With People" show. Their daughter, Ann, is a junior at Pasadena High School.

The church board reports: "The Santa Anita Church is very happy to have Margaret Stevens as part of the church staff. Her charm, her fine cultural background, her wealth of experience in community activities and understanding of children and youth is part of the fulfillment of the church's expansion program."

Estimated milk production in 37 countries of the world, accounting for about 85% of the world supply, was up about 1 1/2% in 1966 from a year earlier.

Take your problems to CHURCH this week -- millions leave them there!

The Signature of Our Son

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

From Los Angeles to Yosemite Nat. Pk. on 1 tank of gas.

You can do it easily in a Renault 10. It averages an honest 35 m.p.g. (Multiply that by the 10 gallons its tank holds and you get 350 miles—more than enough for the trip.)

In fact, if you avoid a lot of stop and start maneuvers and stay away from the Renault's top speed of 84 m.p.h., you can even do better than 35 m.p.g.

All it takes is a short trip to our place first.

## You and Your Neighbors

by LYNN RICHARDSON

Mr. and Mrs. Louis Hoffman on West Highland had a visitor for one week. They entertained Mrs. Hoffman's sister from Memphis, Tennessee. Mrs. Verda Fargher comes out to California once each year to visit them and they look forward to her sojourn. This gives the ladies a perfect chance to catch up on all the gossip and events that are just too lengthy to write in letters. Most of the time was spent with dinners, little parties and get-togethers of friends and relatives, so Mrs. Fargher would be able to visit with all of them. One of the highlights of her vacation was a trip to San Juan Capistrano and the mission. She had never been there before and really enjoyed the serene and lovely atmosphere of the quaint little mission. Mrs. Fargher, happily and rested from a lovely vacation, flew back home August 4. That's the only thing wrong with vacations, they come to an end much too fast!

Mr. and Mrs. Herb Hezlep enjoyed a lovely 10-day business and pleasure trip to Cleveland, Toronto and New York during the month of June. It was perfectly timed for Mrs. Hezlep, who, like so many mothers, was

exhausted with the ending school year and the Scout troops, socials to attend, children's music lessons and all the little extra duties to perform. The weather in Toronto and Cleveland left much to be desired, too rainy and too cool (like some of that weather now though) New York was lovely though. Sunny and clear. One of the best parts of their trip included a visit to the beautiful Niagara Falls and dinner in the new restaurant built high over the Falls which offers a view of the entire area. They later went on another vacation for a while with their four children Douglas 10, Nancy 8, Carolyn 6½ and Barbara 3. They all went to the beach in their camper for two weeks. They visited Mrs. Hezlep's brother and family for a couple of days and then went to Newport Dunes to camp. Had a grand time but just never seems long enough. Their summer is made even more busy because of little Barbara who found out she loves strings, and pieces of thread as much as some small folk love their blankets. It worries them, wondering what she's unweaving to accumulate her threads! One of life's little mysteries!

## Villa Views

By Toni Maurin

SYcamore 7-9634

Just gettin' so you can't win any way you cut the cake. Was reading an article the other day that said 35 cents out of each dollar you earn goes for taxes. It went on to say you work for the government till the middle of May before you can call any of the hard earned dollars your own. Between working for the government, supporting your church, and all of the various charity drives, I figure you probably work well into July, and you still haven't made a cent. Makes a long hungry winter and spring. By that time you relax and say "now I'm on my own and I can keep everything that comes in," and what happens, you go into an economic slump.

Figure the only way you can beat the rap is to go on government dole and let them worry about getting the taxes from someone else. Every time I get feeling right with the world some steps in to shake me up. Finally got so I could figure out in my head the 4 per cent tax on merchandise and what do they do but up it to five per cent. Back to my times tables to bone up and start all over. Besides that, the article I read was written before the new tax. This may put us off on earning for ourselves right up to August. Well, I told you I was too fat.

Got a lovely letter from Bernice (Mrs. Don) Jaxthelmer the other day. After 17 years of living in our area they moved to Laguna and are now happily established in "Leisure World." If you think Leisure World is a place to live when you are through going places and doing things you are completely in error. The Jaxthelmers are busier than ever. Don is serving as president of the Laguna Hills Oregon Club, remaining true to his early years in Oregon, and he is a whiz bang on the lawn bowling green. The Oregon Club is a very active organization with meetings every month. Bernice has always been a woman that has loved hobbies, and is very talented in her pursuits. She has several, but among her favorites are decorating jewelry boxes and waste paper baskets, and the best of all is what she can do with a blown out egg shell. She creates the most beautiful jeweled eggs you would ever want to see and is only limited by time. She could have an unlimited market for her treasures if she just had more time to produce, but her many interests prevent mass production. She is on the committee for the Laguna Beach Festival of Opera, which is a job that is almost like coming home to her. She was a professional singer before her marriage and for 15 years after her marriage she served on the board of directors for the Portland Junior Symphony. In Los Angeles she worked with the Young Musicians Foundation.

The best news of all about the Jaxthelmers was the news that on July 10 they marked their golden wedding anniversary. They celebrated with a cocktail hour and dinner party in their home overlooking the ocean. In addition to a host of friends that joined in the celebration their daughter Dezi and family, Mr. and Mrs. Thomas Winchester and their two children, Brian and Mary Elizabeth were there as well as their long time friends, Mr. and Mrs. Roy Boscow of Corona del Mar. The Boscows are very special to the Jaxthelmers and for a very good reason. Mrs. Boscow had been the pianist at their wedding those many years ago.

Bernice and Don, all of your old friends on Old House Road and the Villa join together in congratulating you, on your anniversary. We all hope we have as much zip as you two do, when we make our golden anniversary.

Dr. and Mrs. Charles Arminksi and their children have joined the many, many people in this country that have taken to the road in campers. After years of renting horse trailers and trying to find rooms after they arrived for a horse show this was the logical move to get a camper and a horse trailer to go along. The family went out on a trial run that lasted a little better than two weeks, and believe me all of the chil-

## Bank of America Has Tax Schedule

BankAmericard officials announced recently that free, convenient-sized copies of California's new sales tax schedule are now available to retail merchants at all Bank of America branches throughout the state.

The 4 by 8-inch cards, a special service of BankAmericard, are being offered as a supplement to the state's supply of copies of the new schedule. The cards include a complete listing of the new five

per cent combined tax collection schedule, and can be obtained in unlimited quantity upon request at any of Bank America's 930 branches.

Food and Drug Administration says, "In general, the incidence and levels of pesticide residues in the nation's food supply are not approaching dangerous or even alarming levels." Support your local merchant — buy locally.

# How to convert your toaster to atomic power

It's easy, if you're an Edison customer. Just wait a few months, then plug it into one of your electrical outlets. The odds are that at least part of the electricity that toasts your whole-wheat will be generated in a nuclear power plant. And you know what? Not even your toaster will be able to tell the difference.

There's nothing very mysterious about atomic generation of electricity. Instead of burning natural gas, oil or coal to turn water into steam, heat developed from controlled atom-splitting is used. This steam then spins a turbine-generator, producing electricity.

Our first full scale nuclear power station, the San Onofre plant, is well on its way to going "on the line." That is, the electricity generated here will be fed into the Edison system and made available throughout Edison territory. And we're working on plans for a second nuclear generating plant that will be built on an artificial island off the Southern California coast. It will be built together with a plant to make sea water drinkable which is being developed by the Metropolitan Water District and other local and federal government agencies. Plans also have been announced

for a third atomic generating plant east of Point Conception in Santa Barbara County.

Nuclear power stations are clean and quiet and make good neighbors. And they are an answer to the power needs of our growing area in the not-too-distant future.

Atomic generation is just one more way we have to provide you with a constant and plentiful supply of electricity. That's what our customers want and, as an investor-owned company, it's our business to make sure they get it.

## Letters to the Editor

Dear Editor:  
This war, our Army, and its reserve.

On twentieth-century occasions when limited wars develop overseas and cause dislocations among the civilian populace, articulate complainers, each with his own argument, gripe at the Reserves who have not yet been called, and ask why Reserve (including National Guard) Division are not activated ahead of conscripts, why the peacetime expense of maintaining a Reserve is not drawn on promptly, why pay continues for part-time Reserve duty when there is need for additional troops on active service now, and why the elaborate preparation placed into Reserve organization and equipment remains mostly unused in the present war.

I have recently had the honor to observe the General Staff of the U.S. Army at war, and have seen elected representatives concerned on Capitol Hill.

The workings in national preparatory planning with a critical and dangerous international setting needing balanced force distribution, are complex. The United States is not wasting any manpower... numerous contingencies are continuously re-evaluated, a time-consuming and retarded process.

The Active Army in peacetime is normally shorted on personnel within Divisions by limited appropriations; the need to keep cadres together, and national agency demands upon this service for manning new projects spread troop strength thin in some areas. The draft is depended upon to bring Active Army Divisions to full strength when a campaign is undertaken. Thereafter, with Regular Divisions overseas, the US continental defense force (which is also a standby force to back up the campaign, if called) consists mostly of the Reserve organizations.

Careful consideration is being given to the weight and location of forces worldwide. The Reserve Divisions and technical commands are presently nearly as much of an international power factor as if they were activated. After lengthy hearings and debate, the House of Representatives passed a Bill (H.R. 2) prescribing minimum levels of strength for National Guard Divisions and Reserve Commands, setting organizational forms, and including other needed law. The Army, raised and maintained by the Congress (not the President), fulfills quite a number of significant national and international roles, each spelled out in the law, including appropriations.

Most Army Officers are Reservists... some Reservists serve 30 years on active duty... Others become Regulars for a time, then return to the Reserve.

Pursuant to the "one-army" concept, Active, Reserve, Regular, and National Guard Officers are interchangeable administratively, and, on active duty operations, are reviewed to keep available, and to re-assign, Officers, worldwide, by individual qualifications, regardless of component.

A large proportion of Reservists receive no pay at all, yet are required to meet every week, furnish their own uniforms and automobiles, produce free work, study changing data in their branch, muster, pass exams, meet physical standards, stand by for an order to 24 months active duty anywhere there is an Army post or campaign underway, follow rather stringent regulations, and respond promptly to unexpected Orders on their own time (whether they interfere with personal life, business, family, and job or not). Volunteers are preferred, as in the U.S. Marine Corps.

In World War II, total mobilization required 13 million men in uniform to win on two fronts simultaneously. For a population of 140 million, we had nine percent on duty. If total mobilization comes again when our population stands at 200 million, then 18 million may have to be called... if only two-thirds of these are for the Army, how large a Reserve is needed to furnish trained cadres? If the organized Reserves are, by the Congress, authorized a strength of only half a million, and become mostly deployed overseas as complete Divisions and technical Commands, before mobilization, the shortages upon mobilization may resemble 1941. The Reserve strength should back the Active Army by a ratio of at least 2 to 1. An example of use of organized Reserves was the late, short Middle-East war, where the victor rapidly mobilized its Reserves in a ratio of 4 to 1 (four times the Active Army), and reached the Suez.

The Swedes might achieve mobilization in 48 hours, the Swiss in 6 hours. In 1941, the U.S. took one and a half years. How much time will we have next emergency? What manpower capability should we organize and hold back to deter an attack? The militia concept, whereby every able-bodied man of military age owes service and is entitled to training is parallel to the Federal Congressional policy of universal military training.

Consider the average training time for: a Platoon Sergeant, 4 years; First Sergeant, 15 years; Company Commander, 10 years; Sergeant-Major, 18 years; Battalion Commander, 20 years; Regimental Commander, 27 years; and typical Specialists, 1 to 5 years. Where will the time be found for training? To illustrate the magnitude of mobilization requirements, some 200,000 Second Lieutenants would need to be found and trained within the first year.

The San Gabriel Valley is fortunate to be represented by a practical and far-sighted countryman, Hon. Glenard Lipscomb, whose grasp of the national defense structure and contingency planning is comprehensive.

Enemy propaganda is now exceedingly effective; American agencies seem to be continually defending themselves against oblique attack. As expensive as it is prepared for a war, it is potentially disastrous to lose one. If the United States can get off the propaganda defensive and can establish unquestioned international military primacy (with its firm allies), our country's prospects will benefit.

## Harmful Drugs Bill Passes Senate Committee

A bill (Assembly Bill 2593) requiring the Department of Education to undertake a study, in cooperation with the State Department of Public Health, on the subject of more effective education relative to physical and psychological hazards of narcotics and other harmful drugs and hallucinogenic substances, was passed last week by the Senate Committee on Education.

State Senator H. L. Richardson (19-R.), a co-author of the bill and a member of the Senate Committee on Education, stated, "A preliminary report on the study will be made by March 15, 1968, and a final report will be made before the 15th day of the 1968 Regular Session."

"Although this is a definite step in the right direction, I certainly hope we can go farther during the next session. When we see segments of our future generation destroying themselves with narcotics, psychedelic drugs and other substances, it is incumbent upon us to provide our young people with sufficient information on the harms of such things to their minds and bodies, so they will repulse any offer to experiment with these dangerous narcotics and drugs."

"Legislation that would have required teaching the harms of alcohol, narcotic drugs and tobacco upon a human body, was killed earlier this session. I am hopeful that this bill will ultimately lead to what that bill would have accomplished."

## Refunds Slated For Gas Company Customers In Aug.

The California Public Utilities Commission has approved plans submitted at its direction for refunds totaling \$3,300,000 to Southern California natural gas customers.

The refunds will be made by Southern California Gas Company and Southern Counties Gas Company of California because of reductions in the price paid pipeline companies for out of state gas since last January 1.

## Sierra Madre To Be Again Honored At Santa Anita

Once again the rich stakes program at Santa Anita Park will honor Sierra Madre this winter. The 1967-68 racing season at the Arcadia track will be the longest ever — 75 days — from Tuesday, December 26, through Saturday, April 6.

The \$20,000-added Sierra Madre Handicap will be presented on Tuesday, March 26. It is conditioned for 4-year-olds and up, and will be raced at a distance of about 6 1/2 furlongs on the turf course.

Under provisions of a new racing law recently passed by the State Legislature and signed by the Governor, the California Horse Racing Board approved the extended winter Thoroughbred racing season at Santa Anita.

The expanded racing program contains five \$100,000-plus classics, including the new invitational handicap for older fillies and mares, The Santa Margarita. It will be raced on February 17, at one mile and one-eighth.

The other four classics are the \$145,000-guaranteed

Refunds will be for the period from January 1 to July 1, at which later date the local companies reduced charges to their customers \$3,970,000 per year. Part of the refund also will come because the California gas companies have taken accelerated depreciation on eligible property, thus reducing their federal income tax expenses.

Customers will receive refunds as a credit on their August bills. Residential and other general service customers who used 25,000 cubic feet or less of gas in June this year will receive 36 cents from Southern California Gas or 38 cents from Southern Counties. General service customers who used more than 25,000 cubic feet of gas in June will get refunds in proportion to their usage. Customers on all other rate schedules will receive refunds in proportion to their usage during the first six months of 1967.

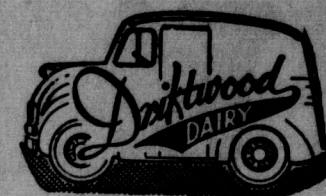

Santa Anita Handicap, \$125,000 San Juan Capistrano invitational marathon handicap on grass, \$100,000-added Charles H. Strub Stakes for 4-year-olds and the \$100,000-added Santa Anita Derby for 3-year-olds.

## "Everyone's so friendly."

"Whenever I go to Pasadena Federal Savings, the welcome feeling starts at the front door. I know they're all busy people with a lot of accounts to serve. But they always seem to have time to give consideration to my problems. Most of them know my name, and really seem to be interested in me as a person. For instance, the other day an officer took the trouble to explain their various new savings plans—one of which pays a 5.25% dividend—and advised me which was best suited to my needs... at Pasadena Federal they answer your questions so courteously—the way a friend would."

Current annual rate of 5% on passbook savings is highest in U.S.A. A still higher rate of 5 1/4% available on accounts

of \$1,000 (and multiples) when maintained 3 years. All funds compounded daily, and, if received

by the 10th, earn from the 1st. Accounts now insured to \$15,000. Free parking. Postage paid on save-by-mail.
